MANHOOD

IN THE

YOUNG AND RISING GENERATION.

The organic powers of life are strong, but in the above cases how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. Disease soon becomes visible to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the most unfortunate movements. Removed from ordinary diversions of the ever changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwardly upon themselves.

If the patient be a female the approach of the menstrual period is looked for with as much fear as the first symptoms which martyrs to show a rousing power in offering the infatuation and inducing the cheek with the bloom of health. Alas! increase of appetite has given way to what it feed on. The energies of the system are perverted and the whole economy is deranged. The mental and wonderful period to which the mother looked as the dawning of a new life, is changed from a child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave is waiting for its victim.

"With woful measures wan despair
Low sullen sounds their grief beguiled."

While we regret the existence of the above disease and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

Sold by Druggists and Dealers everywhere. Price $1.25 per bottle, or six bottles for $5. Delivered to any address. Describe symptomsin all communications.

The Kennebec Landland Lumber Co., has seven camps, crews, consisting of nearly 200 men in all, and sixty horses at work at Moose River. Six camps are hauling spruce, pine and cedar, and one camp of ten horses hauling pine.

Josiah Chase of Lexington, had nine fine sheep killed a few nights ago by dogs, in his sheep yard. This makes not less than forty sheep and lambs that have been destroyed by those miserable curs within the last eight months in that immediate vicinity.

Warden Rice received from H. C. L. Dorsey, esq., the well known "Prisoner's Friend," a sum sufficient to furnish a dinner of boiled ham and cabbage to all those confined within the State Prison; this dinner was served on the 31st of January.

The Belfast Journal says that John Y. Stevens, the young man who was so badly injured by the bursting of a grindstone in the Kelley axe factory, in October, died on the 29th. He was a great sufferer from his wounds up to the day of his death. He was sixteen years of age.

A number of the business men of Ellsworth have petitioned the Legislature for a charter for an insurance company, to be called the Hancock Fire and Marine Insurance Company. Among the petitioners are Amos Wiswell, J. D. Hopkins, H. M. Hall, Erastus Redman and S. K. Whiting.

A home in an ice-house where are stored 5000 tons of ice, and in January, would be thought a cold place to set up housekeeping, yet workmen engaged in storing ice for Talbot and Rust, Rockport, noticed a pair of doves who daily exchange places at noon upon their nest of eggs—the male occupying the nest in the p.m., and both at night.

The statement going the rounds of the papers that Maine pays her members of the Legislature $2 per day is not correct. The members are paid $190 for the regular session be it long or short. For a few years past the members have contrived to make the session about sixty days in length, giving themselves $2 50 per day.

Several buildings are in process of creation at Pittsfield, among them are a machine shop and a large store. In the spring a large woolen factory will be erected on the new dam which is half a mile above Pittsfield village. This dam is capable of furnishing motive power for another mill of large dimensions. On the old dam are situated a woolen factory, a grist mill, and two shingle machines.

On Wednesday a horse took fright, and throwing out his driver undertook to run across the Lewiston railroad bridge, on the narrow track in front of the train. When half way across he tripped and fell, down on his side, his hips sliding over the edge of the bridge; but in falling, a chain ran under one of the iron truck-braces, holding him fast till ropes were procured and he was released.—He was bandaged and set off the bridge and apparently sustained very little injury.

POST OFFICE ROBBERY.—The recent arrest at the Boston post office, of a clerk named Marshal Sly Laws, was brought about principally from information derived at the Augusta office by Postmaster Hamlen. Last August a package of about forty letters addressed to Augusta, was picked up on an island in Boston harbor. They had been robbed and thrown into the water. This led to an investigation by special agent Field, whose suspicions rested on the mail agents of the Boston & Albany or New York Central roads. Search in that direction for the culprit proved unavailing. In September it was noticed at the Augusta office that a large number of advices for money order, were received, for which no corresponding orders were presented. On writing to many of the remitters of these orders it was found that they had been duly mailed, but were lost in transit. Complaint was made to the Post Office Department, which ordered special agent Carr of Bangor to investigate the case. A list of losses was also forwarded by Postmaster Hamlen to the Boston office, and a suggestion made that the facts pointed to that office as the seat of trouble. Special agent Carr, after a thorough examination of the Augusta and Portland offices and the mail route to Boston, reported to the department that in his opinion the losses did not occur east of Boston. Last Friday Postmaster Hamlen, becoming impatient at the continued robbery of mails coming to his office, went to Boston carrying with him many facts which he had gathered, and urging vigorous action. The Postmaster at Boston was exceedingly slow to believe that the guilty party was in his office, but Laws was watched and was seen to go from the sorting clerk to his overcoat, hanging in the office, and put something in the pocket. He was at once arrested, and it was found that he had placed in his pocket a package of letters, none of which he had yet opened. Laws stated that he had pursued his depredations for more than two years past, that he had taken plunder after bundle to his house in Roxbury, and after opening and taking out what the envelopes contained, had burned them up in the furnace. He said that with the proceeds of his depredations he had built three dwelling houses, upon which he had paid more than $10,000, and that he had also deposited in various banks $4000 or $5000 more. The amount stolen from Augusta parties cannot be far from $2000. Laws has been committed for trial in default of bail for $20,000. He is twenty-five years of age, and unmarried.

POLITICAL AND PERSONAL

Garrett Davis has greatly improved in health, and his physician now regards him as out of danger.

The representative of the New York World at the Connecticut Democratic Convention, writes that the desire appeared to be to accept fully the situation, without wasting time or words upon worn-out issues.

The American members of the Joint High Commission received flattering commendations in the House of Commons, at the expense of their British associates. It is gratifying to know that we were represented by such able and sagacious men. And their work, let it stand.

One Cincinnati paper having asserted that no reference to the Almighty is contained in the Constitution of the United States a rival sheet triumphantly exclaims:—"Mistaken, as usual. If it will turn to the attestation it will find the words: 'Done at Philadelphia in the year of our Lord—.'"

The Southern Bourbons make wry faces over the "peasum" policy, and some of them refuse to be bound by it. The Mobile (Ala.) Register represents the latter class. It says the "Democrats do not mean to become such idiots as to ruin themselves in trying to make an alliance with the liberal Republicans and [illegible]

JOHN H LYNDE, - PROPRIETOR.

BANGOR: SATURDAY, FEBRUARY 10, 1872.

THE PRESS ON THE TREATY QUESTION.

As indications of the general drift of opinion upon the controversy raised by England over the Geneva Arbitration, we quote the following extracts from late files of our exchanges. The N Y Times says —

It suits some hare-brained writers to get up a war cry but the bulk of the people in the United States and England know that war between two such nations would be a disgrace to civilization, and they are not likely to be hurried into it by passionate journalists. The Joint Conference should fail, we should be where we were before—not the least of England will be worse than it occurred."

On the other side, a Washington dispatch says the position taken by gentlemen closely connected with the Administration is that the British High Commission perfectly understood the views of the American High Commissioners in the negotiation of the treaty of Washington, both from its terms and the assertions in the protocol, and that, therefore, our Government is altogether justified in presenting the case as it has, claiming consequential damages. In case the Board of Arbitrators shall not award a gross sum in satisfaction of the so-called Alabama claims, this Government is willing to stand by the decision of the Arbitrators. It is known that, though the British Commissioners had full powers, they frequently consulted the home Government, and acted in accordance with its wishes in all they did.

SECRETARY BOUTWELL'S SHIPPING BILL. On Thursday Secretary Boutwell presented and advocated, before the House Committee, the adoption of a bill in aid of our maritime interests. It provides for a bounty of $1e per ton for a period of five years for the construction in this country of first class iron steamships of not less than 3,000 tons each for not exceeding 500,000 tons in the aggregate nor 100,000 tons in any year. Proposals to be received for building 50,000 tons on Atlantic coast, 25,000 on Lakes and Mississippi, and 25,000 on Pacific coast. To be built under Government inspection, with privilege of sale to charter for Government use, to carry mails at appraised compensation, and one or two subordinate officers on each to be detailed from the Navy.

Also, if consistent with public interest, a bounty to be paid of $8 per ton on all vessels not less than 400 tons burthen to be built in this country and employed in foreign trade; on vessels not less than 200 tons to be built in this country, to engage in the coasting trade not more than three months per year, a bounty of $6 per ton, to be refunded pro rata on taking out a coasting license subsequently; to vessels engaged in the cod or mackerel fisheries on Atlantic ocean for at least four months per year, a bounty of $6 per ton.

Vessels of the United States employed in foreign trade or in fisheries, may purchase ship stores, supplies and outfit, not including articles for repair or the running of such vessels, in bond and without the payment of duties, under such regulations as may be prescribed by the Secretary of the Treasury.

Secretary Boutwell supported the bill in a speech of nearly a 1 hour's duration. He was followed by Secretary Robinson, who confirmed the statements of Secretary Boutwell in regard to the great importance of a merchant marine as a means of naval defence in time of war, and especially for the purpose of engaging as privateers.

The new narrow gauge locomotive over which mechanics are so interested, has been criticised as incapable of carrying as heavy trains in the aggregate as the broad gauge. But competent authority says it was applied to a Welch railroad, where it actually doubled the road's capacity and removed the previous necessity for laying a double track. It consists, it would seem, two engines in one, two fire boxes, steam domes, smoke pipes, etc., and the power is distributed over the whole space of the engine and tender. One of these engines, weighing only nineteen and one-half tons, will take a load of one hundred and seven tons up a grade of one in ninety-two with a proportion of paying to non-paying weight of three to one. On a Russian three feet six inch gauge road a gross load—exclusive of engine weighing forty-two tons—of 1 tons, of which 200 is paying weight, is carried over a grade of one to eighty.

LETTER FROM AUGUSTA.

AUGUSTA, Feb. 9.

To the Editor of the Bangor Courier:

A large audience, principally of ladies, assembled in the Representative Hall last evening to listen to an address from Mrs. Lucy Blackwell on Female Suffrage. Mrs. Blackwell is a very pleasant, impressive speaker, presenting her subject in a clear and eloquent manner, giving no quarter to the pessimistic outlines of "free love," so much connected with this question by certain fanatics.

In the House this morning Mr. Lebroke moved a reconsideration of the vote yesterday passing the Lewiston & Auburn Railroad bill to be engrossed. The question of reconsideration was debated in favor by Lebroke, Walker of Newport, Pike and others, and by Knight of Portland and others against. The motion failed, yeas, 56, nays 71, and the bill passed to be enacted. This finally settles this question, so far as the House is concerned.

There are now important questions enough before the House to keep it in session two weeks at least. Next week the committees will have mainly finished their business, and both Houses will hold two sessions per day. Pike's general Railroad bill, the Free High School bill, the "Mill Tax" bill, so-called, the bill allowing towns and cities to loan their credit for manufacturing and other purposes, the compulsory attendance bill, several Railroad bills of importance, together with all the bills granting aid to Literary Institutions, with all the acts reported by the Special Committee on temperance are pending in one branch or the other. Many of these bills will be debated at length—all indicating a lively time during the remainder of the session.

Mr. Porter of Burlington, to-day reported the general appropriation bill, amounting to about $900,000. It was discussed by Messrs. Carlton, Perry, Porter, Pike and others, and laid on the table. It provides mainly for the appropriations required by existing laws, and has only a few outside items. There is manifestly a disposition to curtail all appropriations of money, which argues well for the economy of the House.

The Committee on Education, before whom there has been a great press of business, reported finally to-day; other committees are closing up their dockets and an adjournment by or about the 20th inst. is confidently looked for.

JOHN SMITH, JR.

PRIMARY PRIDE. The following is vouched for by the regular army-soldier who was detailed to act as the Grand Duke Alexis' orderly during the grand buffalo hunt at Red Willow Creek:—

The first buffalo shot by the party was an aged veteran, and by unanimous consent the struggle with the old fellow was given to the Duke. His rode confidently forward and discharged a few shots at the old bull without fatal effect, whereupon the animal turned and made fight. Alexis threw away his gun and jumped from his horse. As the buffalo approached him he drew his short sword and plunged it into the animal's side, killing him instantly. Just how he came by the fatal stroke he could not explain, but not since a Russian Prince [illegible] publican.

The Treasurer of the Province of Ontario in his statement presented to the Legislature Thursday, shows the annual revenue to be $2,338,179 and expenditures, $1,816,897.]

FROM AUGUSTA.

COMMENCEMENT AT WATERVILLE.

AUGUSTA, Feb. 7, 1872.

A very great deal of business in the House on the Lewiston & Auburn Railroad bill, a room still occupied upon it—discussion business. Hon. Mark Emery, of Kennebec, to-day called the attention to the Governor and Council, before which was pending the petition of the Boston & Maine railroad, in connection with other roads. Judge Rice made a statement of facts which he specially have called the attention of the Governor and Council to

"WHAT IS THAT TO THEE?"

BY THOMAS D. JAMES

When I am called to die,
I would not grieve my friends by sighs and tears,
Nor want them to keep watch beside my bier
Through days and nights of anguish;
I would not have them feel that they must part
From one dear object in the light of day,
While I lie cold and dead within the dark
And narrow house.
I would not have one sad memorial stone
Rise o'er my dust to say that I am gone.
I would not have the place where I am laid
Known to the world, lest some rude hand invade
The grave of her who sleeps beneath the sod,
And break the seal that Nature puts on those
Whom she adopts into her long, long sleeping,
Where even the storm cannot disturb the deep
Calm of the heart that throbs no more.
I am resigned to the stern fate
Which severs all the ties that bind
Me to the loved ones I shall leave behind;
I am submissive to the will of Him
Who holds the issues of life and death within
His mighty hand, and metes out unto us
Our destiny.
I am not afraid to die,
For I have learned to trust in God,
And feel that He will do all things well.
I am not afraid to die,
For I have learned to look beyond the dust
And gloom of death, and see the bright immortal day
Which breaks upon the tomb.
I am not afraid to die,
For I have learned to look beyond the cross
And shame of Calvary, and see the crown
Which Jesus wears.
I am not afraid to die,
For I have learned to look beyond the anguish
Of parting hence, and see the joy
Of meeting those who sleep in Him.
I am not afraid to die,
For I have learned to look beyond the sting
Of death, and see the victory
Which Jesus gives.
I am not afraid to die,
For I have learned to look beyond the valley
And shadow of death, and see the light
Which shines upon the hills of Paradise.
I would not vainly choose
What God shall lead me up the holy mountain,
Or gather comfort at the crystal fountain;
I am willing to be lost
To the guidance of the hand that o'er has led me,
And I know not how or with mercies spread
Or graces fed.
If gentle be the call,
If quiet and feeble be the distant warning,
As imminent daystreak of the early morning,
Clipping the pine-tree tall,
And brightest growing till the red east shines
With fullest glory on the glowing pines
How grateful should I feel!
That I might still bemoan my loved ones longer,
Might carry still my timid faith grow stronger,
Might linger to reveal
The fitness that aware life can never unveil,
The confidence dying only can exhale.
If sudden be the stroke,
If all unfit for feel its coming,
The flash, fast followed by the thunder's booming
That watches the skyward oak,
While pale with fear we hold our baited breath,
In view of the swift messenger of death
How quiet am I favored to!
A lot to fee departing spirits given—
Painless to pass from earth and sin to Heaven,
Or, surely, sweet,
Departure as should dread, at once to rise
On whirlwind pinions to the opening skies
So I suppose my trust,
And, whether speedy messenger obeying,
Or waiting, patiently my Lord's delaying,
To summon me to rest,
On his dear mercy will I lean, and dwell,
His knowath best, He doeth all things well.

The large increase of the business has compelled lease of No. 80 Beekman-st., and arrangements for the manufacture of five thousand LIGHTNING crosscuts per month, and hope to be able to fill all orders promptly.

The supply has been unequal to the demand for the LIGHTNING BUCK SAW, but hereafter I will endeavor to keep a stock on hand. The sale of several thousand Lightning Saws also demanded saws of a coarser pitch, but always failed to give satisfaction. Now that few are used in my family, at the time it was received, I was suffering badly with Asthma, attended with a dry, hard Cough, both of which left immediately after taking the mixture. The latter has not returned. It has been several weeks.

INVESTING MONEY.

The 7 3-10

LOAN!

A Choice Investment Security!

We offer for sale at par and accrued interest, the

First Mortgage

Land Grant Gold Bonds

OF THE

Northern Pacific

RAILROAD COMPANY.

These Bonds are payable in 1900—bear 7 3-10 per cent. interest in GOLD, payable first of July and January, are FREE OF U. S. TAX—are convertable at 10 PER CENT. PREMIUM for the Company's lands at the LOWEST CASH PRICE, and are issued in the following denominations: Coupon bonds, $100, $500 and $1,000; Registered bonds, $100, $500, and 1,000, $5,000 and $10,000.

The Company is allowed to negotiate and procure a loan which shall not exceed Fifty Thousand Dollars, per mile, which is secured by a FIRST and ONLY MORTGAGE, "UPON THE RAILROAD, FRANCHISES, AND ALL THE LANDS AND PROPERTY, AND RIGHTS OF PROPERTY, REAL AND PERSONAL, NOW IN POSSESSION BY THE NORTHERN PACIFIC RAILROAD COMPANY, OR WHICH THE SAID COMPANY MAY HEREAFTER ACQUIRE," and the TRUSTEES OF THE BONDS ARE OBLIGED TO HOLD 25 000 ACRES OF AVERAGE LAND AS SECURITY FOR EVERY $50,000 OF BONDS ISSUED.

The sales of all lands "AT SUCH PRICES AS APPROVED BY THE SAID TRUSTEES," are set apart to redeem the Bonds, for by the definite terms of the mortgage, "THE PROCEEDS OF ALL SALES OF LANDS, WHETHER IN CASH, BONDS, COUPONS OR OTHER SECURITIES, SHALL BE DEPOSITED WITH THE TRUSTEES," also, "ALL MONEYS IN THE HANDS OF THE TRUSTEES FOR LANDS SOLD, SHALL BE INVESTED IN THE BONDS AT PAR," and, "THE FIRST MORTGAGE BONDS OF THE COMPANY SECURED BY THIS MORTGAGE, WHEN SAID BONDS CAN BE PURCHASED AT NOT A SUM NOT EXCEEDING 110 CENTS ON THE DOLLAR AND ACCRUED INTEREST."

Although the Northern Pacific Railroad Company intend to sell the same quality of lands at prices BELOW OTHER GRANTS, to induce rapid settlement; still the practical working of the above provision is apparent, for the sales of land up to November 1st exceed in 1,200,000 acres, at an average price upwards of $5 per acre, EQUAL TO 1,200,000, OR MORE THAN 10 PER CENT ON $11,500,000, WHICH WAS THE TOTAL AMOUNT OF LONDS SOLD TO THAT TIME; still this 60,000 acres of land is NOT QUITE ONE-SIXTEENTH PART OF THE LAND GRANT IN MINNESOTA ALONE.

Below we give the average price per acre of the sales of the Land Grants on different roads, that some idea may be formed of the immense value of the 60,000,000 acres granted to the Northern Pacific Railroad Company, for there can be no doubt that the average price per acre of its land sales will be much above the general average price these roads:
